GENERAL INFORMATION

The summer quarter is an integral part of the school year. The organization and administration of the summer school is on the same basis as that of the regular school year. Instruction is conducted by the regular staff with the assistance of visiting professors.

PURPOSE

In addition to regular undergraduate and graduate functions the purpose of the summer school is to offer in-service teachers an opportunity to renew their teaching certificates and to work on their degrees. It is possible for a student to complete a semester of work by entering on April 23. Students who desire a full quarter's work may enter on June 4. The dates for registration for a semester, quarter or six weeks period will be found listed in the calendar at the front of this bulletin.

The summer quarter also offers an opportunity for regular students to expedite their graduation by continuing their studies through the normal vacation period.

Students from other colleges and universities have an opportunity of securing special courses which they may need to complete their programs.

ADMISSION REQUIREMENTS

Former students of Mississippi Southern College who have maintained satisfactory records, persons who hold high school equivalency certificates, graduates of accredited high schools, and transfers from junior colleges are eligible for registration in the summer quarter.

Students who are in good standing at other colleges or universities are also eligible for admission. It is not necessary for a student from another college to present a transcript of credits unless he plans to become a candidate for a degree at Mississippi Southern College. Such a student may register as a special student. It is necessary, however, for a special student to present a certificate of good standing in the college from which he comes.

Admission is granted only on the basis of application. All students who have not been in attendance at Mississippi Southern College during the immediately preceding quarter must file applications for admission. The application form printed on the last page of this bulletin may be used for this purpose.

It is necessary for all entering freshmen to file with the Director of Admissions transcripts of their high school work or other acceptable evidence of eligibility for admission. It is necessary for all regular new students who have been enrolled at other institutions, and all regular former students of Mississippi Southern who have been enrolled at another college or university since being enrolled at Mississippi Southern College, to file with the Director of Admissions complete transcripts of work done elsewhere. All transcripts should be sent to the Director of Admissions well in advance of registration dates so that permits to register may be prepared before students arrive on the campus.

ACADEMIC REQUIREMENTS

The general regulations governing the Mississippi Southern College as set forth in the regular catalog of the college will prevail during the summer school. Students who need assistance in the planning of their work are

invited to counsel with their major professor or with one of the administrative officers.

CERTIFICATES TO TEACH

Teachers may secure a renewal of their license by completing eight quarter hours of work. Individuals desiring to have their license renewed should request the Registrar to send a transcript of their credits to the Division of Certification, State Department of Education. The transcript must be accompanied by the renewal fee of $1.00.

PRE-PROFESSIONAL CURRICULA

Pre-professional curricula are available for students interested in Medicine, Dentistry, Law, Engineering, and Pharmacy. Students who are planning to enter these fields should consult the special advisers for the fields.

RELIGIOUS AND SOCIAL OPPORTUNITIES

At Mississippi Southern College social and religious activities are considered a vital phase of student life. Activities are planned that are as varied and diversified as the interest of the student body may justify.

The religious organizations are especially anxious to fill the needs of members of their particular denominations and to contribute to campus and community life as a whole through the Student Christian Federation. At the beginning of the summer quarter the Federation sponsors an all campus party for students and faculty. Vesper services on Wednesday evenings are under the auspices of the Student Christian Federation.

Social organizations on the campus plan informal parties which add much to the social life at M.S.C. The Student Council schedules events of interest to all students.

A planned intramural athletic program will be available for both men and women. This will include late afternoon softball games, golf, tennis, swimming, and pingpong. A water show with special swimming and diving events will be held in July.

ANNUAL SUMMER SCHOOL PICNIC

Outstanding chapel speakers and musical programs will be scheduled.

The two traditional all-student events are the barbecued chicken picnic during the first part of the summer quarter and the watermelon cutting usually held in July.

Groups arrange interesting educational tours to nearby points of interest. There are also opportunities to arrange for deep sea fishing trips.

PLACEMENT BUREAU

Mississippi Southern College maintains a Placement Bureau to help graduates and students secure positions and to assist school officials and business concerns in finding teachers and employees.

Due to so many men being called into the armed services, it is expected that a great number of requests will be received for employees in government and business as well as for teachers and school administrators. Those who have not definitely secured positions are urged to file applications with the Placement Bureau early in the session.

A full-time placement director has been employed to carry on the work of placement and everything possible will be done to assist applicants in finding good positions. There is no charge for this service.

STUDENT EMPLOYMENT

During the Summer Quarter, the college will be able to give part-time employment to a number of students. Students who are interested in earning part of their expenses should file an application with the Director of Student Welfare of the college, prior to the opening of the Summer Quarter.

DEMONSTRATION SCHOOL

In cooperation with the city schools of Hattiesburg, a complete Demonstration School will be operated at the college during the Summer Quarter. Facilities for observation and practice teaching will be available from the first grade through the senior year of high school.

NEW SENIOR WOMEN'S DORMITORY TO BE READY FOR OCCUPANCY IN JU

THE READING CLINIC

In May, 1946, a Reading Clinic was opened at Mississippi Southern College. The clinical unit, consisting of offices, individual teaching rooms, a psychological testing room and observation rooms, is housed on the second floor of College Hall. The psychological testing room is equipped with "one-way" glass for the convenience of students doing observation in diagnostic and remedial reading and for parents who wish to observe the child being tested. Superintendents may arrange for their teachers to visit and observe. Also, they may send their pupils for examinations.

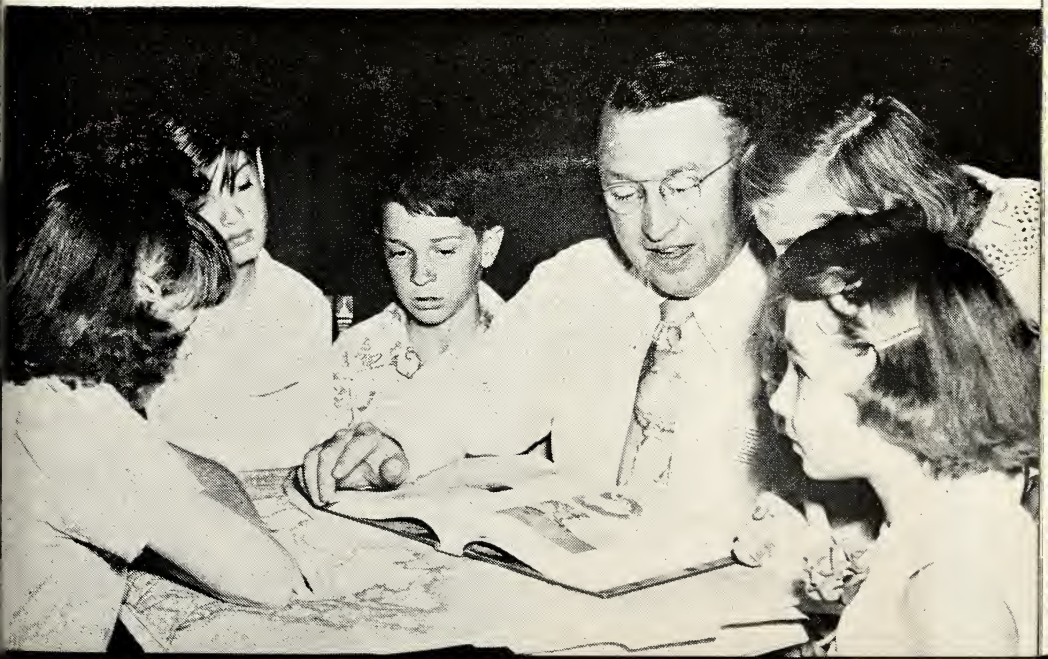
An audiometer, tape recorder, oscilloscope and cheiroscope for visual retraining and a film projector were added to the equipment this past year. The clinic has a fine professional library for teachers and an adequate library of easy and interesting books for pupils who find reading difficult. Use is made of teacher-made material and basal readers in the instructional program.

The objectives of the reading clinic are: to administer psychological and educational tests for diagnostic and retraining purposes; to retrain children and adults who are retarded in educational status; to train teachers in scientific diagnosis and remedial reading; to execute research in the objective study, personality and guidance of pupil life; to make surveys in these areas and serve and render consultative services in education and psychology.

Children may be referred to the clinic by superintendents, teachers, parents, eye specialists and other agencies. The fee for a complete educational diagnosis and a program of remedial procedures and suggestive materials of instruction is $10.00 or a proportionate part based on ability to pay.

If a child is enrolled in the clinic for individual remedial instruction the fee is $20.00 per month. As a rule it is desirable to have a child come to the clinic five periods per week. The total number of hours of remedial training required by a child will vary with the extent and type of difficulty exhibited. Write to the college for the Reading Clinic catalogue.

STUDENTS IN THE READING CLINIC



SUMMER THEATRE

The Division of Speech Arts will produce at least one play or a program of plays during the summer quarter. All students with talent and interest in dramatics are invited to try out for these plays.

SUMMER RADIO

The Division of Speech Arts will continue radio programs which have been in progress during the regular academic year.

BAND, CHORUS, AND LITTLE SYMPHONY

A special chorus will be organized during the summer quarter as well as a special concert band and Little Symphony. The choir, band and orchestra will meet for regular rehearsals one evening each week. Special concerts will be given by these organizations during the summer session.

THE LIBRARY

The Joe Cook Memorial Library will be open from 7:15 A. M. to 9:45 P. M. on Monday through Thursday and from 7:45 A. M. to 5 P. M. on Friday and Saturday.

BOOKSTORE

The college bookstore is well stocked with textbooks, art materials, and all other supplies needed by the student.

STUDENT HEALTH SERVICE

The Student Health Clinic is available to every regularly enrolled student. One of the college nurses is on duty at all times.

A college physician is available to students for consultation at the college hospital during his regular office hour. Both college physicians are on call at all times.

TESTING IN THE SPEECH CLINIC

LIVING ACCOMMODATIONS

The college has available dormitory accommodations for approximately nine hundred students. If you desire a room in the dormitory you should fill in the application for admission and mail it to the Director of Admissions with the $8.00 room reservation fee. Room reservation fees will be credited to your account. No room reservation deposit can be refunded unless the reservation is canceled ten days prior to the opening of the quarter for which the reservation is made.

Rooms are equipped with the following furniture: Two or three single beds with comfortable inner-spring mattresses, a dresser, a chest of drawers, lavatory, chairs, and a study table. Students must furnish all linens, bed covering, pillow, and curtains for windows and closet doors. Dormitories are cooled by attic fans.

A limited number of trailers, houses, and apartments are available for married Veterans of World War II on the campus.

If the dormitories are filled, living accommodations for women students outside the dormitories must be selected from the list approved by the College authorities.

All students not living in their own homes, whether rooming in the dormitories or in private homes or rooming houses, are subject to the regulations, control, and supervision of the college. The College uses its efforts to safeguard such students, but no responsibility can be assumed.

SPECIAL EVENTS FOR THE SUMMER

THE READING CONFERENCE

In connection with the program in the Reading Clinic, the annual Reading Conference (Education 104-A, B. C. and 534) will be conducted the week of June 11. Outstanding authorities in the fields related to the work in the Clinic present papers, lead discussions, give demonstrations, and suggest school planning in the fields of their specialization. The faculty of the Demonstration School and visiting technicians teach demonstration lessons in line with the general theme of the conference; observation of these lessons is a regular feature of the program. The Reading Conference may be taken three times for credit. Graduate students may arrange for graduate credit. Teachers who have had the Reading Conference previous to this year should enroll for Education 104-B or C.

PARENT-TEACHER CONFERENCE

A special event of wide interest to professional and lay educators is the annual PTA Home and Family Institute, which is tentatively scheduled for Monday and Tuesday, July 23 and 24, 1951. This conference has been sponsored annually by the Mississippi Congress of Parents and Teachers for twelve years. State officers and chairmen, who plan and execute a two-

TESTING IN THE READING CLINIC

day program of the workshop type, are assisted by a representative from National Congress of Parents and Teachers, who brings inspiration and counsel.

National Education Association and Mississippi Education Association officials furnish speakers and consultants as needed. Mississippi Southern cooperates by offering its facilities and specialized services.

Although this conference is planned specifically to provide leadership training for the PTA units in the southern half of Mississippi representatives from all sections are invited to attend and participate.

SUMMER CONFERENCE FOR SOCIAL STUDIES TEACHERS

(History 192b)

A series of six afternoon and evening conferences on illustrative materials from Mississippi for teaching the social studies will be sponsored again by the Division of Social Studies during the first six weeks of the summer session, 1951.

The series may be elected for two hours' credit as History 192b. Visitors not interested in credit will be welcome.

Many speakers will be from off the campus. They will include Mississippi historians, political leaders, and specialists in different social studies fields.

Materials presented will be different from those presented in 1950, and the series may be taken for credit for the second time.

SPEAKERS AT THE FIRST SOCIAL STUDIES CONFERENCE, SUMMER 1950

ORIENTATION COURSES FOR LATIN AMERICANS

Each quarter the Institute of Latin American Studies conducts an eight-week Orientation Course in the English language with courses in English conversation, composition and grammar and a course in the Culture and Civilization of the United States. From forty to fifty business and professional people from Cuba, Mexico and the various Central and South American Republics attend. Many doctors, lawyers, engineers, exporters, army and navy officers, secretaries, school teachers, and students come to Mississippi Southern College to take the eight weeks' Orientation Course in the English language.

During their stay, the students are taken on educational tours to various places of historic and scenic interest and to the Gulf Coast and neighboring states. Trips are taken to such places as Mobile, in order to visit beautiful Bellingrath Gardens; Jackson, the capital of the state, in order to meet the Governor and visit the Executive Mansion and Capitol Building; Vicksburg and Natchez, on the Mississippi River, and to New Orleans, where they are guests of the City of New Orleans, the Dock Board, and the International House.

In addition, various business firms in the state arrange trips through their factories and manufacturing establishments.

ANNUAL SUMMER SCHOOL IN BOGOTA, COLOMBIA

The Mississippi Southern College in cooperation with the National University of Bogota, Colombia, will hold its annual summer school in Colombia from July to August, 1951.

The purpose of the summer school in Colombia is to provide an opportunity for students to study Spanish in the environment in which it is spoken. Further, the session in Colombia aims to promote better understanding and relationships with our sister republics to the south through the medium of a first-hand study of their language, literature, and culture.

The course will be jointly sponsored by the Latin American Institute of of Mississippi Southern College and Reyneco, Cultural Exchange Agency, of Bogota, Colombia. The National University of Colombia is one of the oldest and best known Universities in all South America.

All courses are fully accredited by the Mississippi Southern College toward a regular Bachelor's degree. In addition, by special arrangement, students may work for graduate credit.

WORKSHOP FOR SCHOOL LUNCH MANAGERS

The fourth annual Workshop for School Lunch Managers will be held in August.

The purpose of this workshop is to contribute to the training of lunchroom managers so that they may provide every school child with low cost, adequate, well-planned meals, properly cooked and attractively served.

Workshop groups and discussions are planned. Topics include food selection, purchasing and preparation, organization and management, care and use of equipment, sanitation, record keeping, and training employees.

EDUCATIONAL WORKSHOPS

Mississippi Southern College operates a number of educational workshops during the spring and summer in off-campus locations. While these

work conferences are primarily for school administrators and teachers, welfare workers, rural ministers and community leaders are invited to enroll and take part in them. The purpose of these workshops is to furnish opportunity for the solution of instructional problems under the guidance of experienced leaders and consultants. For the past three years emphasis has been placed on efficient classroom teaching. This year the Professional Education and Specialized Education areas, described on pages 16-17 of the new Bulletin 130 of the Mississippi State Department of Education, TEACHER EDUCATION AND CERTIFICATION, will receive treatment. Instruction will be directed toward these courses:

Principles and Techniques of Teaching
Music for Children
Art for Children
Literature for Children
Modern Elementary School
Science for Children
Child Growth and Development
Adolescent Growth and Development

Each workshop is five weeks in length. A member may use the credit for renewal of a teacher's certificate, for professional advancement, for refresher courses in the field of his particular interest, or toward graduation. Only undergraduate courses and problems are offered by Mississippi Southern College in off-campus workshops, and all workshop courses count as extension.

Fees for off-campus workshops total $32.00 for eight quarter hours credit, plus library fee of $2.00.

Last year thirteen workshops were conducted by Mississippi Southern College serving 639 persons in 38 different counties of Mississippi.

THE ANNUAL WATERMELON CUTTING

The demand for workshops on the part of teachers and administrators has steadily grown since this type of teacher education was introduced at Mississippi Southern College, and it will not be possible to organize and staff such conferences in all communities desiring them. Hence, locations are determined on the basis of need and greatest service. Workshops are organized only in those communities where we may serve a substantial number of persons wanting this type of instruction who cannot be adequately served from the campus, and where the full and positive support and cooperation of school officials is assured.

GULF COAST RESEARCH LABORATORY

The Gulf Coast Research Laboratory, located at Ocean Springs, Mississippi, will hold its summer session during the second term of the summer quarter. A student will be able to earn six quarter hours of college credit during this session of the Laboratory. Credits earned at the laboratory are recognized by all the senior colleges of Mississippi and, therefore, throughout the nation.

It is strongly recommended that all biology majors take at least six hours of work at the Gulf Coast Laboratory, where they will have opportunity to study the varied and highly interesting forms of life inhabiting the semi-tropical waters of our Gulf of Mexico. Many of these forms are of extreme economic importance to the State of Mississippi.

At the Gulf Coast Laboratory, students will have opportunity to work under the direction of professors who have done specialized work on such forms as fishes, amphibians, reptiles, crustaceans, insects, etc. A specialist in the field of endocrinology and another in the field of invertebrate embryology will also be at the Laboratory this summer. Students who have any intention of doing graduate work in biology may very likely begin an investigation on some form of life found in the Gulf Coast waters, which may be expanded into a master's thesis. A great deal of pioneer work on the Gulf Coast forms of life needs to be done within the next few years. It is most desirable that Mississippians prepare themselves to do such original work.

The fees for these courses will be found listed under the course descriptions below. Veterans who have not used up their allotment for the year may continue to receive the financial aid afforded by the G. I. Bill.

Courses to be given at Gulf Coast Research Laboratory, Ocean Springs, Mississippi, are:

Biology 152—Field Botany. Three hours. Laboratory fee—$18 00.

Biology 153—Marine Zoology. Six hours. Laboratory fee—$30.00

Biology 154—Endocrinology. Three hours. Laboratory fee—$15.00.

Biology 155—Cryptogramic Botany. Four hours. Laboratory fee—$18.00.

Biology 156—Fishes of the Gulf. Six hours. Laboratory fee—$30.00.

Geology 154—Problems in Marine Sedimentation. Four hours. Laboratory fee —$18.00.

THE GRADUATE DIVISION

(A special bulletin is available on request)

One of the primary functions of Mississippi Southern College is to prepare teachers, supervisors, and administrators for all branches of public school service. The graduate curriculum is intended to meet the needs of teachers in the elementary and secondary schools as well as to provide an organized program of training for school administrators and supervisors, and advanced music work.

The student who pursues graduate work broadens his professional outlook and academic knowledge, receives additional professional training, and familiarizes himself with techniques of research. The student must manifest ability to collect and evaluate data and must be able to see the implications of his conclusions in relation to other fields of human interest and study.

The Master's degree in Education will be regarded primarily as an extension and broadening of the professional education received on the undergraduate level with particular emphasis upon the fields of study in which the student is interested. The goal sought is the improvement of classroom instruction and/or school administration and supervision.

The ultimate aim is the fusion of the professional and subject-matter training of maximum benefit to the particular student.

The Master's degree will be conferred on those meeting the requirements in the field of Education, with emphasis in five particular fields: School Administration and Supervision, Secondary Education, Secondary Education with Emphasis on Subject Matter Fields, Elementary Education, Elementary Supervision, and Health and Physical Education. Those majoring in Secondary Education may take minors in Biology, Commerce, English, Guidance, History, Mathematics, and Speech Education. For those who wish to specialize more in subject matter fields, the Secondary Education Major will permit majors in the following teaching fields: Biological Sciences, Commerce, Business Education, History or the Social Studies, Literature, Mathematics, and Speech Education.

BUSINESS REGULATIONS

Announcements concerning expenses, fees, and furnishings are subject to change without notice and may not be regarded as binding obligations of the college. In time of changing conditions, it is especially necessary to have this definitely understood.

Should a student withdraw within three days after date of registration all fees will be refunded.

Should a student withdraw for any reason prior to mid-term of any quarter fifty (50%) per cent of Incidental Fee will be refunded and pro rata percentage of board and laundry fees will be refunded.

Special or Laboratory Fees will not be refunded under any circumstances after a student has been in attendance for three days.

All students, faculty, officers and employees rooming in dormitories are required to take their meals in the college cafeteria. Others who take part of their meals in the cafeteria are charged per meal.

No deduction in living expenses is made for an absence of less than two continuous weeks, and then only when the absence is necessary and is reported to the Secretary's office five days in advance. No reduction of board is made on account of late entrance.

No lesson in music or laboratory course is given until fee is paid and receipt presented to instructor.

While no deposit is required for loss and damage, any amount charged to a student must be paid before examinations are permitted.
